

Our SOLUTIONS

In-Building Coverage (DAS)

Seamless indoor cellular coverage for large and complex venues.

Private 4G/5G Networks

Secure, dedicated mobile networks for critical enterprise operations.

Enterprise Wi-Fi Design

High-performance Wi-Fi 6/6E for modern workplaces and high-density spaces.

CCTV, IoT & Security

Integrated connectivity for cameras, sensors, and smart building systems.

RF Design & Optimization

RF surveys, drive testing, and performance tuning for maximum coverage.

Consulting & AMCs

Strategic guidance, 24/7 support, and annual maintenance contracts.

DAS Solution delivers end-to-end enterprise wireless solutions, from planning and design to deployment and ongoing management. We keep your critical spaces connected with reliable, high-performance networks tailored to your business.

WE ARE HERE FOR YOUR CONNECTIVITY

Why **CHOOSE US**

DAS Solution is a telecom and IT solutions provider focused on enterprise wireless connectivity. We design and deliver in-building coverage, private 4G/5G networks, enterprise Wi-Fi and secure connectivity for CCTV and IoT, using industry-standard RF tools and best practices.

PROJECT HIGHLIGHTS

- 99.5%+ uptime SLAs
- Certified RF and network engineers
- End-to-end design, deployment and support
- Multi-vendor, 5G-ready solutions
- Proactive monitoring and optimization

Key **INDUSTRIES**

We design and manage enterprise wireless networks for environments with high user density, complex buildings and critical applications. Our team tailors each deployment to the industry's workflows, compliance needs and growth plans. We currently support projects in:

- **Stadiums & Arenas**
- **Hotels & Hospitality**
- **Hospitals & Healthcare**
- **Airports & Transportation**
- **Education**
- **Retail & Shopping Malls**
- **Warehouses & Logistics**
